# Weather Key Points

Regional Operations Center

Western Region

Friday, July 8

- Hot temperatures will return to much of inland southern California on Friday, building across much of the Central Valley through the weekend and first half of next week
  - Daytime high temperatures will warm into the 100 to 107°F range across much of the Central Valley, and 105-115°F range (locally even hotter) across the southern deserts
  - Moderate to locally high heat risk impacts are likely for many inland areas, particularly Sunday through next Wednesday
- Breezy conditions will persist most afternoons and evenings in and around the foothills, mountains, and southern deserts the middle of next week bringing a continuation of locally elevated fire weather conditions
  - Widespread critical fire weather conditions remain unlikely through next week
- Dry weather is also expected through the first half of next week, though a few monsoon showers and thunderstorms could return to far southeast California by late next week

# Precipitation Forecast

Regional Operations Center

Western Region

Friday, July 8

**No significant precipitation is forecast across the state through Sunday**

**Note:** Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.
